Wedding flowers

A considered guide to your day

BOUQUETS · CEREMONY · RECEPTION

A NOTE FROM LEANNE

Flowers that feel like you

Your wedding flowers should carry the mood of your day: the colours you love, the shapes that move you and the moments you want to remember. I listen first, then create a floral story with personality and feeling.

Choose your bouquet style and size, add flowers for your wedding party, then select ceremony and reception designs. Every section can be mixed and matched to suit your celebration.

01	Bouquet	Choose your shape and scale
02	Wedding party	Add flowers for your people
03	Ceremony	Frame the meaningful moment
04	Reception	Carry the story into the room

Seasonal flowers and foliage are selected within your colour palette. Specific stems and final designs are discussed as part of your proposal.
